

Honourable Josie Osborne, Minister of Health

**1. Support for Foundry Sea to Sky in Pemberton**

Background

Sea to Sky Community Services, lead agency for Foundry Sea to Sky, is expanding the program to Pemberton, with services to be delivered from SSCS' future building on Harrow Road. SSCS and the Harrow Road project are well-positioned to provide in-person support youth facing mental health and addiction challenges. Expansion of the program will fill a vital need for youth and their families. The new Foundry centre will draw youth and families from the Village and surrounding areas throughout the Squamish-Lillooet Regional District. As such, the centre will act as a hub rather than a satellite centre and will need adequate funding to support the needs of all those who will access its services.

Request

The Village of Pemberton is requesting Minister Osborne's advocacy on behalf of the new Foundry Centre in Pemberton and is seeking funding support to ensure that the new facility can reach its fullest potential in meeting the needs of those needing access its services.
